I'm just along for the ride  
So take me someplace new  
I need a break after all that I've been through

Strap me down in the shotgun seat  
Drive me through a star-kissed sky  
You don't need to say anything  
But let me know you're right nearby

We'll blow a kiss to the silver moon  
In blossom in the open night  
Doesn't matter what's going on  
Right now everything's alright

I'm just along for the ride, baby  
Just grab the wheel and drive  
I need your help to feel awake and alive

I'm just along for the ride  
So take me someplace new  
And keep me out 'til the sun dances on the dew

Melt into laughter on this aimless road  
And change my malicious mood  
Hide away - just you and me  
In warm quiet solitude

Room to ride - room to roll  
Room for a brand new day  
I'm just along for the ride, baby  
I'm just along for the ride

Uh huh  
Ah yeah  
Ay yeah, whoa whoa whoa, ah yeah
